

Hellton Ngirdmiau

Hellton grew up in Palau, a small island in the Pacific. After high school he left for Guam to attend the University of Guam for 3 years before joining the Army which he served in for 4 years. His first duty was in Germany which he said was fun and he had a good time there!

Hellton is the second oldest of two brothers and a sister and has lived in Germany, Hawaii, Guam, Oklahoma, Kentucky and now Washington. He is married to Tanya and they have 3 children, 1 daughter Risong and 2 boys Shawn and Sked. When he's not working they enjoy hanging out as a family and visiting places around WA and OR.

When asked about his work history, Hellton said he was working odd jobs here and there when one day he heard on the radio that you could sign up for a HVAC certification. It was a good thing because he could use his GI Bill to attend. Hellton was 33 when he signed up for school and then did work for a residential installation company for a year. Hellton said he picked HVAC because someday his dream is to return to Palau & start a HVAC business there.

Hellton is currently working out at Gardiner Middle School with Josh, Randy, Sam F, Noah, Kory and Red. He said a typical day for him is staying busy connecting duct or helping the guys with whatever is needed to get the job done. Hellton said he likes connection duct work the best and one of his best experiences since working here was being a part of the crane pick at Gardiner, first time going a AHU-1 weighing 18,600 lbs.

How would your family or friends describe you? *"a laid back kind of guy"*

What would surprise us about you? *"I have swam with jellyfish & a shark"*

"My work related goal for the year is to finish the job we're working on and move to the next"

EMPLOYEE OF THE MONTH

MIKE GONZALES

Mike is a hard worker and always has a “get it done” attitude. No matter the situations he always finds the solution. Mike is easy going and makes work enjoyable for everyone around him. He is always trying and wanting to learn to help better himself in the trade. He is really a jack of all trades - Ryan Howell

Congrats Logan and Stephanie Raisanen
on your new baby girl Nina Marie

Welcome:

Ryan Warner - Service Apprentice

Timothy Radtke - Service HVAC Tech

Congratulations on your engagement!

Amanda Hymans to John Hatman

Cole Stolp to Rachel Heidegger

EASTSIDE CREW W/JAKE & KARL

Productivity tip of the month

Each month, the JRT Newsletter will have a tip about how to improve productivity on the job. Please text or email ideas to Ron Bergmann at ronb@jrtmechanical.com or 360-903-2742. If your tip is chosen for a future newsletter, you will receive \$50.00 CASH!

This month Cedar Lundstrum is the winner with his helpful idea on how to use Trello for receiving & tracking material. It has been a very useful tool! If you have not received instruction or still need training, please contact Ron Bergmann.

Another example could be “ never walk empty handed on the jobsite.” Always look around to see what garbage, material or tools you can haul in both directions. This will help keep the workspace organized, clean and improve productivity.
